

Name: _____ Solving Quadratics – Graphing Wksht
Graph the equations. State the solutions or roots. State the domain and range.

1. $y = x^2 + 2x - 8$

2. $y = -x^2 + 6x - 5$

3. $y = 2(x - 2)^2 + 2$

4. $y = x^2 - 6x + 9$

State the solutions for the following graphs.

5.

$$y = -3x^2 - 6x$$

6.

$$y = -x^2 - 6x - 11$$

7.

$$y = -x^2 - 8x - 15$$

8.
